RE: Proposed 80' X 80' Hanger at Merritt Island Airport

Dear Dr. Lehton,

Having known Servant Air Ministries' mission for the past 14 years, I would like to officially endorse the building of an 80' x 80' hanger at the Merritt Island Airport.

I would like to thank Servant Air Ministries, a 501-3c, not for Profit Corporation, for being instrumental in conducting Angel Mercy flights for patients with serious illnesses and for participating in disaster relief, such as your work with Katrina victims during the hurricane crisis in New Orleans. Additionally, you have assisted numerous non-profit organizations in transporting staff and boards of directors to locations throughout the State of Florida. Servant Air Ministries is commended for this outstanding service to the citizens of Brevard County without using public funds.

Based on Servant Air Ministries' long overdue need for a home for your humanitarian efforts at the Merritt Island Airport, the Brevard County Sheriff's Office is dedicated to helping you however possible. We would be more than happy in providing your contractor with our crew supervisor and 6 to 8 inmates to work with the pre-site, site, construction, pouring of concrete, and sheeting of this proposed hanger.

If you should have any questions regarding the Brevard County Sheriff's Office's support to help construct this facility, please have the Airport Authority contact me at their earliest convenience.

Once again thank you for your air transport ministry to the people of Brevard County and your continued working relationship with the sheriff to provide air transport to our citizens.

Sincerely,

Sheriff Jack Parker
